# Seminar Overview

Five whys (5 whys) is a problem-solving method that explores the underlying cause-and-effect of particular problems.

The architect of the Toyota Production System, Taiichi Ohno, described the five whys method as "the basis of Toyota's scientific approach by repeating why **five times**"

However, most of us (if not all) are unable to get up to the fifth why... WHY is that so?

Join this seminar to learn one of the easiest tips and technique in performing an effective 5 Why analysis.

# Agenda

## The Needs of 5 Why in IATF 16949 Audit

Understand the needs of performing 5 Why in IATF 16949 audit findings and NC Management.

## Part 1 – Scientific Sequence

If you are struggling to reach up to the five Whys and stuck at only second and third Why. Most likely you are not applying the "Scientific Sequence". Learn the super easy and logical way to successfully construct your 5 Why analysis.

## Part 2 – 5 Why and 3W

The corrective action is not necessarily only at the fifth Why. Constructing 5 Why analysis using 3W approach will unleash all the possible root causes to the problem.

## Case Study

We will use the actual scenario to construct our 5 Why so participant can put into practice everything that have been thought through this seminar.
