Q1-2

Q1: WHAT IS THE RECOMMENDATION OF SUPPLIER OF MULTIPLE CUSTOMERS WHERE IT APPEARS TO MAINTAIN TWO DIFFERENT FORMAT OF FMEA FOR A CERTAIN PERIOD OF TIME ?

A1: Do a pilot without the pressure of any specific customer demand and convince yourself internally how you go about revising your FMEA process.

Q2: WHERE DO WE FIND THE SOFTWARE IN COMPLIANCE WITH NEW FMEA ?

A2: You can find at AIAG Core Tools Support Software

Q3-4

Q3: WHEN WILL BE THE NEW FMEA BE ADDED TO IATF 16949 ANNEX ?

A3: FIEV has recently release a PFMEA guideline booklet for Renault that require that methodology. It will be formalize at the next revision of IATF.

Q4: WILL THE 4TH EDITION BLUE BOOK BECOME OBSOLETE ?

A4: Yes, with the OEM transition there is no reason to maintain the 4th edition

Q5-6

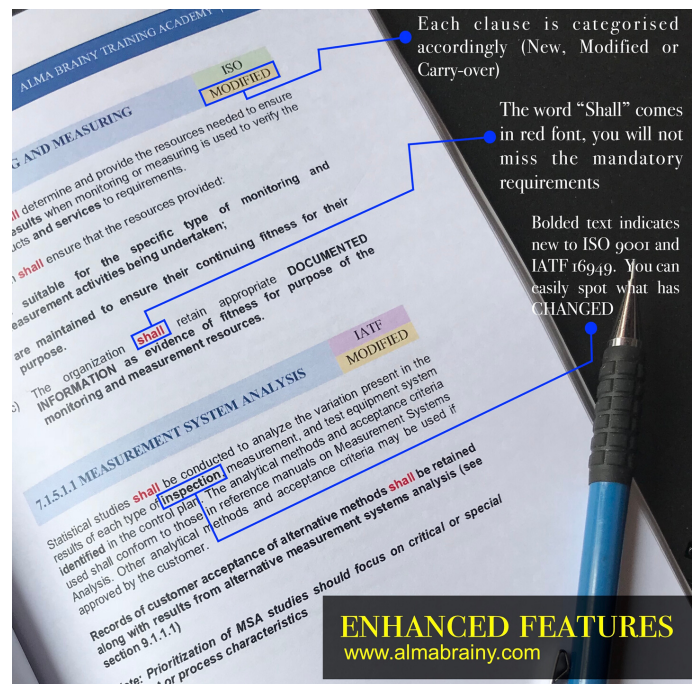

Q5: DO WE ALWAYS HAVE TO IDENTIFY BOTH PREVENTION AND DETECTION OR CAN WE JUST IDENTIFY STRONG DETECTION, WHICH PROBABLY CAN IMPROVE OCCURRENCE ?

A5: Detection can never affect the occurrence. We should think of that prevention is to target the failure cause and double coverage by putting detection

Q6: WILL THERE BE ANY CHANGES IN CONTROL PLAN ?

A6: Yes

Each clause is categorised accordingly (New, Modified or Carry-over)

The word "Shall" comes in red font, you will not miss the mandatory requirements

Bolded text indicates new to ISO 9001 and IATF 16949. You can easily spot what has CHANGED

Q7-8

Q7: IS THERE ANY FEEDBACK FROM KIA, HYUNDAI, TOYOTA?

A7: There are not IATF member and not connected to either AIAG or VDA, as such there is no insight to their transition timing.

Q8: WILL THERE AN UPDATED AIAG PPAP EXCEL FILE AVAILABLE ?

A8: There will be a basic alternate form sheet along with the form sheet in excel where AIAG is planning to make them available and expected to be in November and can be seen in AIAG website.

Q9

Q9: WHEN WILL BE THE BB STARTS TO REQUIRE THE UTILIZATION OF THIS NEW FMEA?

A9: There is no specific answer for now BUT the IATF and the oversight offices have an action item to update the auditor

development program (ADP) for the new FMEA. The oversight offices will work with AIAG and VDA to get their staff trained and update the ADP module and oversight will communicate through the CB to all the auditor and specifically give them 6 month for auditor to take the online training and be able to pass the test and the IATF oversight office will track that completion and they typically give themselves at least 80% of the auditor went through this before we aspect that start recurring in field. Since the ADP has yet to be updated, the earliest could be mid of 2020. However if your new program or if there is any agreement between you and your customer to have the new FMEA rolling, the expectation for compliance is immediately.

Q10-11

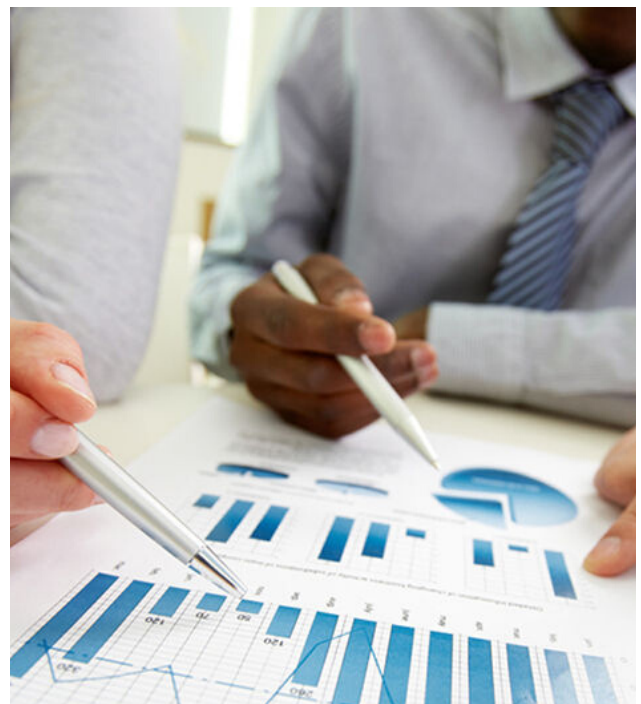

Q10: WHERE CAN YOU BUY THE HANDBOOK ?

A10: www.aiag.org

Q11: WILL THE MACHINE FMEA WILL BE UPDATED ?

A11: Will be brought to AIAG steering committee for review.

The image shows the exterior of a modern building with a prominent sign on the roof. The sign features the words "ALMA BRAINY" in large, yellow, serif capital letters against a dark blue background. Below the main text, there is smaller, less legible text in white. The building has a light-colored facade and large windows with dark frames. An orange rectangular overlay is positioned in the center of the image, containing the academy's name and address in white text.
