SPM...it is where all begins

BY ALMA BRAINY

No matter how often we said that kids shall not be measured by the amount of "A" they got, the fact remain unchanged...our education system is still so much into exam oriented. SPM result seems to be the determining factor for their next course of action. While schools are a good place to learn how to get as many "A" as possible, it does not cater the needs of the pupils to live their life after school, it just not in the curriculum. Very seldom we had a serious talk with the pupils about the bumpy roads ahead of them. The reality is life will only begin after school.

Why Is Alma Brainy Organising LIBAS?

BY AZRUL FAIZAL | MANAGING DIRECTOR

As the saying goes "melentur buluh biarlah dari rebungnya". 2021 LIBAS (Life Begin After School) is created with the intention to expose school leavers with the challenges that awaits them irregardless of their SPM result. For this year, LIBAS will be focusing on surviving the challenges and the needs to be **extremely** creative in order to stay afloat. Everyone needs to shift from being a job seeker to becoming a job creator.

Our experience in learning and development has helped us to see the scenario in Malaysia's job market from the bird-eye view and putting all these into perspective.

This year is going to be the fourth time we organise LIBAS, it is going to be executed differently because we are indeed living in a different norm.

Program Objectives

At the end of the session, participant shall be able to:-

1. Know what is their strength(s) that will help them craft their life after school.
2. Live a life in a survival mode.
3. Create own path of success and not limiting to educational competency only.
4. An in-depth analysis on how young generation could emerge victorious in financial and educational aspect.

"you may feel the future is still very far away, the reality is, it begins right now"...

-Alma Brainy
